

Take your Tekla model and drawings to the next level with Grasshopper in Tekla Training

Online training for Tekla users

The entire course is conducted **online** through pre-prepared, **real Tekla projects** and practical case studies, requiring approximately 1 hour of commitment per day at any convenient time. Your team will learn everything that an engineer of the future should know from the absolute **top specialists in the field**.

We will teach your team how to **automate Tekla model and drawing production** so that your project will be delivered faster and with better quality.

Krzysztof Wojlaw

- Parametric Design Expert
- Academic Lecturer
- Founder of LearnGrasshopper.com
- Winner of the Tekla Global BIM Award 2020
- Over 10 years of experience using Tekla Structures for building and bridge projects.

Benefits for Your Company:

- ✓ **Time and cost savings** due to early detection of Tekla design errors and misunderstandings
- ✓ **Improved project quality** through employee development with an experienced teacher
- ✓ **Competitive advantage** thanks to the ability to use innovative tools at work and operate them efficiently
- ✓ **Modern, attractive, future-proof workplace**
- ✓ **Fulfilled employees** working in line with their expertise

I provide it ALL with:

- ⊖ NO additional recruitment
- ⊖ NO inconvenient logistics (100% online)
- ⊖ NO taking your employees away from their current projects (I require just a couple of hours of engagement per week)
